# YaraMila™ EXTRAGRASS™ Complete Grassland Nutrition

Is your crop missing its true potential?

*“Farmers need to think long term with P+K rather than just a quick fix with nitrogen”*

Philip Cosgrave, Yara Grassland Agronomist

Did you know?

- Supports good soil P+K fertility
- Safe and reliable source of N
- Additional sulphur increases grass yields by 10-15%!
- True uniform Compound Fertiliser - every granule contains every nutrient

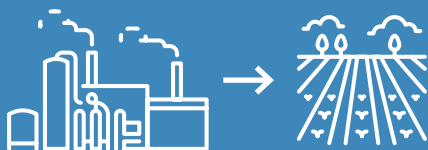

## £1.80 on ExtraGrass supports £5.30\* in liveweight gain

\*Figure based on 1 kg of N supporting 2 kg's of liveweight gain (1 kg liveweight valued at £2.68) from grazed grass

With YaraMila EXTRAGRASS you can trace your fertilizer from factory to field

Yara fertilizer production benefits from the use of abatement technology which minimises our carbon footprint by 40%
